## Projects

### DeepDiagnosis

Apr 2017 - Apr 2017

<https://github.com/DanishShah/DeepDiagnosis>

This is a research oriented project where we have tried to use machine learning models for classification tasks using images as an input.

### DocX

Jan 2017 - Feb 2017

<https://github.com/DanishShah/DocX-PatientRecord>

A patient record keeping web application for Doctors.

### Visio

Feb 2017 - Feb 2017

<https://github.com/jawadsh123/Visio>

An OCR app for Digitization. Visio converts images to text and stores them to a cloud storage provided to each user.

### DisasterManagement

Feb 2017 - Feb 2017

<https://github.com/DanishShah/DisasterManagement>

Disaster Management is a Web and Android Application which tends to solve problems during and after disaster.

### Socialize

Aug 2016 - Dec 2016

<http://www.socialize.16mb.com/>

A Social Networking Website made as a college project. There are lot of functions to be implemented. I might work on this project in future.

### Kashif Sir

Oct 2016 - Dec 2016

<http://www.kashifsir.com/>

A freelance work.

## Projects

### TapTap!

Jan 2016 - Mar 2016

<https://play.google.com/store/apps/details?id=com.ddev.game.taptap>

TapTap is a simple but addictive game and was made just for learning purpose.

### Lights Off!

Sep 2015 - Nov 2015

<https://github.com/DanishShah/LightsOff>

A simple android game made for learning purpose.

### Newspaper

Jan 2017 - Present

<https://play.google.com/store/apps/details?id=com.ddev.newspaper>

Newspaper is a news app which gives you daily headlines from your favourite sources

### Err\_404

June 2017 - Sept 2017

[https://theprogrammersclub.github.io/err\\_404/](https://theprogrammersclub.github.io/err_404/)

The official website of Err\_404 Hackathon organized by MHSSCE.

### Ambrosia

March 2017 - March 2017

<https://ambrosia-the-fest.tk/>

The official website of the annual festival of MHSSCE

## Work Experience

### Android Development

Feb 2017 - June 2017

[I9 Innovations](#)

## Extra-Curricular Activity

- Head member of Programmers Club organized under CSI
- Conducted a two day workshop on Android Development.
- Contributed to some open source projects.
- Core Member of the Err\_404 Hack Not Found Hackathon
- Loves to draw and sketch.
